A selection of articles from across the Nature journal portfolio

Clicking on the cover will take you straight to the current issue of Nature

The main content area features a large featured article: "Venus is Earth's evil twin — and space agencies can no longer resist its pull". Below this are several smaller article tiles, including "The human body is a mosaic of different genomes", "Mating preferences of selfish sex chromosomes", "The lizards rewriting the rules of ecology", and "Daily briefing: White House blocks climate science testimony". A "nature briefing" sidebar is also visible, along with the current issue cover for June 2019.

The navigation menu is organized into several columns:

- Nature**: Research, News, Opinion, Research Analysis, Careers, Books and Culture, Podcasts, Videos.
- Nature Research**: Our Journals (Nature, Nature Communications, Nature Protocols, Scientific Reports), Subjects (Biological Sciences, Scientific Community & Society, Earth & Environmental Sciences, Health Sciences, Physical Sciences), and More (Contact us, Authors & Referees, Librarians, Advertisers, Press, About Nature Research).
- Current Issue**: Browse Issues, Browse Articles, Browse Collections, Browse Subjects.
- About the Journal**: For Authors, For Referees, Awards, Subscribe, E-alert, Submit.

Callout boxes highlight "View all journals" under "Our Journals" and "View all journals, the A-Z index page" under "More".

Additional features on this page include Latest Research articles and letters from across the nature journals portfolio, the most recent Review, News & Views, Perspectives, Hypotheses, Analyses, News, Feature, Comment and Editorial.

As well as:

- Journals tools, including submission, subscription and recommend to library links, e-alert and RSS feed sign-ups and social pages
- Nature Outlook's latest collection
- Footer links to other areas of our site such as Publishing Tools, Researcher Services, useful links for Librarians and more

Know where you are on nature.com at anytime with the "crumb trail" along the top navigation bar.

The screenshot shows the top navigation bar of the Nature.com website. It includes a breadcrumb trail: "nature > volumes > volume 572 > issue 7778". The main navigation bar features the "nature" logo, a "MENU" button, a "Subscribe" button, and search and user account icons. Below the navigation bar is a "Search Nature" search bar with a dropdown menu for "All Subjects". The main content area is titled "Latest Research" and displays a grid of article cards. Each card includes the article title, date, a small image, and a "show more" link. The articles listed are: "Antarctic offshore polynyas linked to Southern Hemisphere climate anomalies", "Off-target RNA mutation induced by DNA base editing and its elimination by mutagenesis", "Heterochromatin drives compartmentalization of inverted and conventional nuclei", "Magnetism in cold subducting slabs at mantle transition zone depths", "Hypersonic Bose-Einstein condensates in accelerator rings", "Group 3 innate lymphoid cells mediate early protective immunity against tuberculosis", "Predator-induced collapse of niche structure and species coexistence", "Palaeo-Eskimo genetic ancestry and the peopling of Chukotka and North America", and "Mating preferences of selfish sex chromosomes". A "More Latest Research" button is located at the bottom of the grid.

Trending

Today's most popular articles that are being shared, liked and talked about online.

Altmetric tracks article citations, shares on social platforms, mentions in blogs and news outlets.

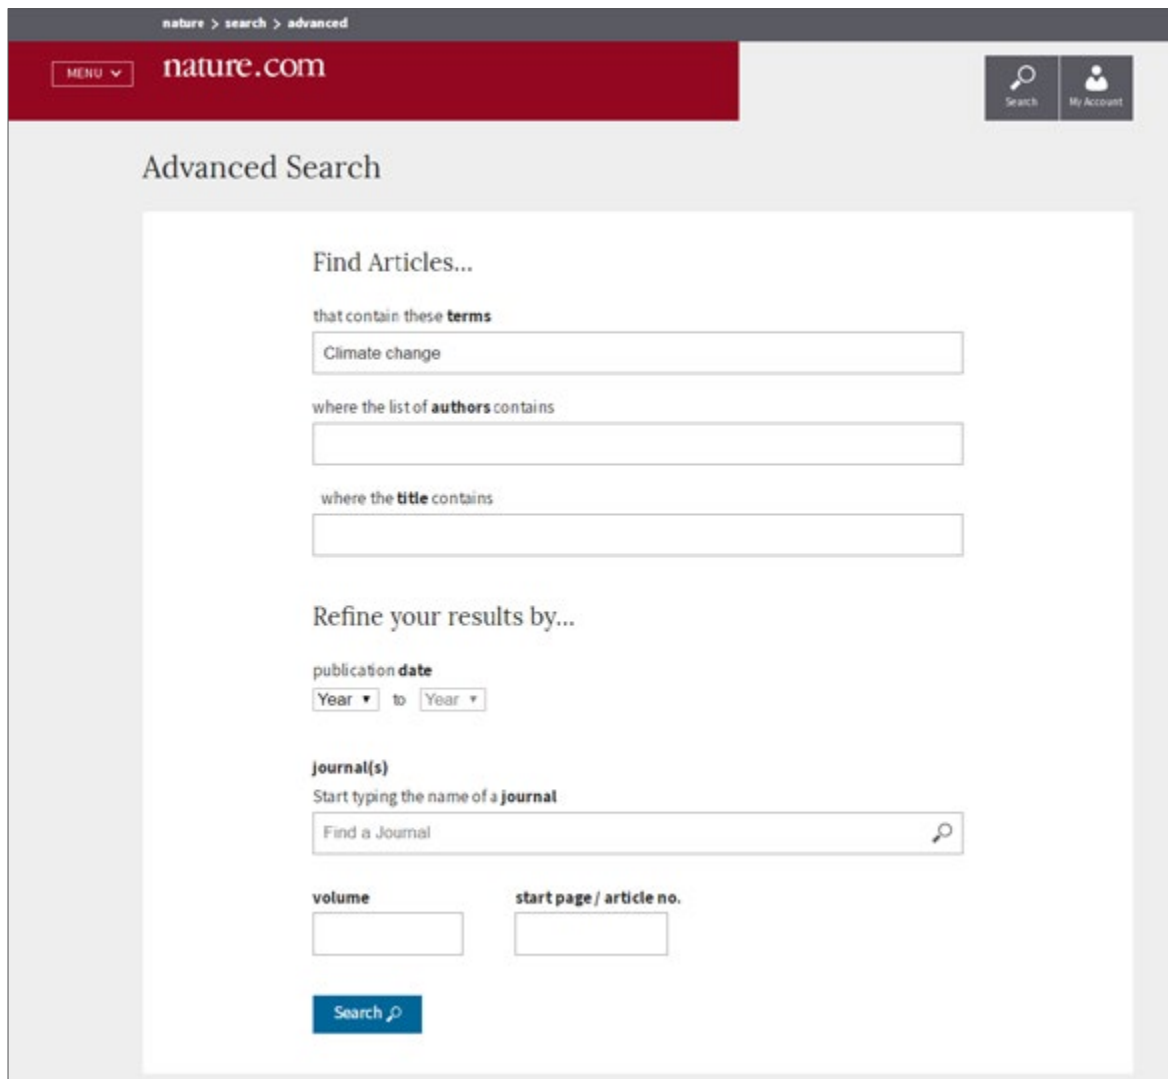

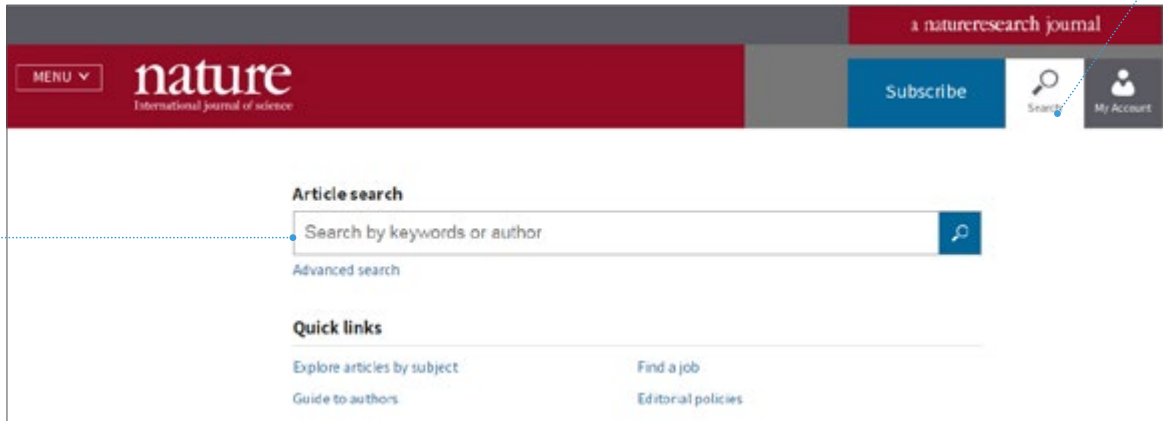

The screenshot shows the "Trending" section of the Nature.com website. It features four article cards, each with a circular Altmetric score icon and the article title. The articles are: "Mapping human microbiome drug metabolism by gut bacteria and their genes" (score 560), "The population history of northeastern Siberia since the Pleistocene" (score 436), "To catch and reverse a quantum jump mid-flight" (score 436), and "Gene edits to 'CRISPR babies' might have shortened their life expectancy" (score 344).

Search

Finding the right information on nature.com is easy and intuitive.

Search boxes appear in the top right corner of all journal pages.

Make your search more specific using the "advanced" search option - see below for more details

Search Results

The screenshot shows a search results page on nature.com. At the top, there is a navigation bar with 'nature > search', a 'MENU' button, the 'nature.com' logo, and 'Search' and 'My Account' icons. The main content area is titled 'Climate change' and includes an 'advanced' search filter. Below the title, there are filters for 'Article type', 'Journal', and 'Date', and a 'Sort by Relevance' dropdown. The search results show two items: a 'Reviews' article from 10 June 2019 and a 'Research' article from 12 June 2019. The 'Reviews' article is titled 'Scientists' warning to humanity: microorganisms and climate change' and includes a snippet of text and author information. The 'Research' article is titled 'Climate as a risk factor for armed conflict' and also includes a snippet and author information. On the right side, there is a 'Climate-change ecology' section with a description and a 'Discover more subjects' section with links to 'Climate change', 'Climate-change impacts', and 'Climate-change mitigation'. A 'Browse all subjects' link is also present.

Filter search results by relevance, article type, journal and date
