Too Weird to Believe, Too Plausible to Deny Mind-Blowing Philosophical Ideas

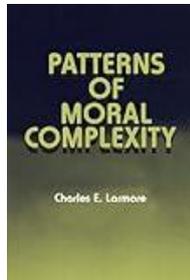

Editor: Cliff Sosis

Publisher: Routledge

Overview: An accessible compendium of twenty-nine radical philosophical arguments that defy common sense yet remain logically resilient. From the denial of the self to the morality of bias, this anthology challenges readers to find the flaws in "impossible" conclusions backed by rigorous reasoning. [Read more.](#)

Patterns of Moral Complexity

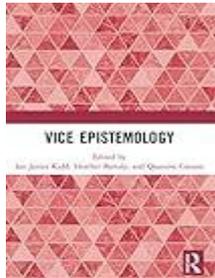

Author: Charles E. Larmore

Publisher: Cambridge University Press

Overview: A groundbreaking defence of "moral complexity," arguing that ethical life cannot be reduced to a single rule or principle. Charles Larmore restores the role of practical judgment and political neutrality, advocating for a "heterogeneous" morality that balances duties, consequences, and our shared cultural ties. [Read more.](#)

Fellow Creatures: Our Obligations to the Other Animals

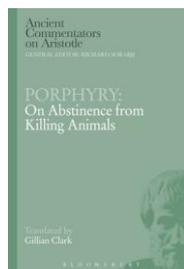

Author: Christine M. Korsgaard

Publisher: Oxford University Press

Overview: Korsgaard argues that human rationality and our shared nature as sentient beings with a good obligate us to treat animals as ends in themselves rather than mere tools. She challenges the notion of human superiority, asserting that our moral standing requires us to view the well-being of every creature as a matter of absolute importance. [Read more.](#)
